

The directory, as the lobby board shows it. **Mark it up, we'll load it fast.**

Laura, this is everything the board lists today, transcribed exactly (including its mistakes, it had Deuces in the wrong suite, so every line is suspect until you or the studio confirms it).

Cross out what's wrong, write what's right, and jot whatever you can grab of the other fields, that's the same info the sign-up form collects, so anything you capture here goes straight onto their card. Send a photo of this sheet to Anne and edits go live the same day. Studios can also do it themselves in two minutes at studiosolutions.com/salonplus.
